No. 7-102/75-LEP-Shram.—The following draft rules further to amend the Himachal Pradesh Factories Rules, 1950 which the Governor of Himachal Pradesh proposes to make in exercise of the powers conferred on him by section 112 of the Factories Act, 1948, (Central Act 63 of 1948) are hereby published as required by section 115 of the said Act, for information of the persons likely to be effected thereby.

The draft rules shall be taken into consideration by this Government on or after the expiry of three months from the date of publication of this notification in the Official Gazette together with any objection or suggestion which may be received by the Labour Commissioner, Himachal Pradesh from any person in respect of the draft rules before the expiry of the period so specified.

DRAFT RULES

1. Short title.—These rules may be called the Himachal Pradesh Factories (Amendment) Rules, 1976.

2. After item No. 11 of sub-rule (1) of rule 95 of the Himachal Pradesh Factories Rules, 1950 (hereinafter called the said rules) the following item 12 shall be inserted namely:—

“12. Factories or parts thereof in which benzene or substance containing benzene are manufactured, handled or used.”

3. Inspection of Schedule XII.—In Chapter IX after Schedule (XI) of the said rule the following Schedule XII shall be inserted, namely:—

SCHEDULE XII

1. Protection against benzene poisoning.—This Schedule is made to provide protection against hazards of poisoning from benzene and shall apply in respect of factories or parts thereof in which benzene or substances containing benzene are manufactured, handled or used.

2. Definition.—For the purpose of this Schedule:

- (a) "Substances containing benzene" means substances wherein benzene content exceeds 1 per cent by volume;
- (b) "substitute" means a chemical which is harmless or less harmful than benzene and can be used in place of benzene;
- (c) "enclosed system" means a system which will not allow escape of benzene vapours to the working atmosphere;
- (d) "efficient exhaust draught" means localised ventilation effected by mechanical means for the removal of gases, vapour and dusts or fumes so as to prevent them from escaping into the air of any workroom. No draught shall be deemed to be efficient if it fails to remove smoke generated at the point where such gases, vapours, fumes or dusts originate.

3. Prohibition and substitution.—(a) Benzene or substances containing benzene shall not be used as a solvent or diluent unless the process in which it is used is carried on in an enclosed system or unless the process is carried on in a manner which is considered equally safe as if it were carried out in an enclosed system.

(b) Where suitable substitutes are available, they shall be used instead of benzene or substances containing benzene. This provisions, however, shall not apply to the process specified in APPENDIX 'A'.

(c) The Chief Inspector may, subject to confirmation by the State Government, permit exemption from the percentage laid down in clause 2(a) and also from the provisions of sub-clause (b) temporarily under conditions and within limits of time to be determined after consultation with the employers and workers concerned.

4. Protection against inhalation.—(a) The process involving the use of benzene or substances containing benzene shall, as far as practicable, be carried out in an enclosed system.

(b) Where, however, it is not practicable to carry out the process in an enclosed system the workroom in which benzene or substances containing benzene are used shall be equipped with an efficient exhaust draught or other means for the removal of benzene vapours to prevent their escape into the air of the workroom so that the concentration of benzene in the air does not exceed 25 parts per million by volume or 80 mg/m³.

(c) Air analysis for the measurement of concentration of benzene vapours in air shall be carried out every 8 hours or at such intervals as may be directed by the Chief Inspector at places where process involving use of benzene is carried on and the result of such analysis shall be recorded in a register specially maintained for this purpose. If the concentration of benzene vapours in air as measured by air analysis, exceeds 25 parts per million by volume or 80 mg/m³ the Manager shall forthwith report the concentration to the

Chief Inspector stating the reasons for such increase.

(d) Workers who for special reasons are likely to be exposed to concentration of benzene in the air of the workroom exceeding the maximum referred to in clause (b) shall be provided with suitable respirators or face masks. The duration of such exposure shall be limited as far as possible.

5. Measures against skin contact.—(a) Workers who are likely to come in contact with liquid benzene or liquid substances containing benzene shall be provided with suitable gloves, aprons, boots and where necessary vapour tight chemical goggles made of material not effected by benzene or its vapours.

(b) The protective wear referred to in sub-clause (a) shall be maintained in good condition and inspected regularly.

6. Prohibition relating to employment of women and young persons.—No women or young person shall be employed or permitted to work in any workroom involving exposure to benzene or substances containing benzene.

7. Labelling.—Every container holding benzene or substances containing benzene shall have the word "Benzene" and approved danger symbols clearly visible on it and shall also display on benzene content information, warning about toxicity and warning about inflammability of the chemical.

8. Improper use of benzene.—(a) The use of benzene or substances containing benzene by workers for cleaning their hands or their work clothing shall be prohibited.

(b) Workers shall be instructed on the possible dangers arising from such misuse.

9. Prohibition of consuming food etc. in work rooms.—No worker shall be allowed to store or consume food or drink in the work room in which benzene or substances containing benzene are manufactured, handled or used. Smoking and chewing tobacco or pan shall be prohibited in such work rooms.

10. Instructions as regards risks.—Every worker on his first employment shall be fully instructed on the properties of benzene or substances containing benzene which he has to handle and of the dangers involved. Workers shall also be instructed on the measures to be taken to deal with in an emergency.

11. Cautionary Notices.—Cautionary notices in the form specified in APPENDIX 'B' and presented in the language easily read and understood by the majority of the workers shall be displayed in prominent places in the workrooms where benzene or substances containing benzene are manufactured, handled or used.

12. Washing facilities, clock room and mess room.—In factories in which benzene or substances containing benzene are manufactured, handled or used, the occupier shall provide and maintain in clean state and in good repairs:

(a) Washing facilities under cover of the standard of

at least one tap for every ten persons having constant supply of water with soap and a clean towel provided individually to each worker if so ordered by the Inspector;

(b) a clock room with lockers for each worker having two compartments, one for streetclothing and one for work clothing.

(c) a mess room furnished with tables and benches with means for warming food provided that where a canteen or other proper arrangements exists for the workers to take their meals the requirements of mess room shall be dispensed with.

13. Medical Examination.—(a) Every worker who is to be employed in processes involving use of benzene or substances containing benzene shall undergo;

- (i) a thorough pre-employment medical examination including a blood test for fitness for employment by a certifying surgeon;
- (ii) periodical medical examination including blood test and other biological tests at intervals of every 6 months by the factory medical officer with the assistance of a laboratory.

(b) Certificates of pre-employment medical examination and periodical medical examination including tests shall be entered in a health register in FORM No. 17 which shall be produced on demand by an Inspector.

(c) If the factory medical officer on examination at any time is of the opinion that any worker has developed signs or symptoms of benzene exposure, he shall make a record of his findings in the said register and inform the manager in writing.

On receipt of the information from the factory medical officer, the manager of the factory shall send the workers so found exposed to the certifying surgeon who shall after satisfying himself with the findings of the factory medical officer and conducting necessary examinations issue orders of temporary shifting of the worker or suspension of the worker in the process.

(d) The medical examination shall be arranged by the occupier or manager of the factory and the worker so examined shall not bear any expenses for it.

APPENDIX 'A' [Clause 3(b)]

1. Production of benzene.
2. Process where benzene is used for chemical synthesis.
3. Motor spirits (used as fuel).

APPENDIX 'B' (Clause 11)

(a) **The Hazards.**—(i) Benzene and substances containing benzene are harmful.

(ii) Prolonged or repeated breathing of benzene vapours may result in acute or chronic poisoning.

(iii) Benzene can also be absorbed through skin which may cause skin and other diseases.

(b) **The preventive measures to be taken.**—(i) Avoid breathing of benzene vapours.

(ii) Avoid prolonged repeated contact of benzene with the skin.

(iii) Remove benzene soaked or wet clothing promptly.

(iv) If any time you are exposed to high concentration of benzene vapours and exhibit the signs and symptoms such as dizziness, difficulties in breathing, excessive excitation and loss of consciousness, immediately inform your factory manager.

(v) Keep all the containers of benzene closed.

(vi) Handle, use and process benzene and substances containing benzene carefully in order to prevent their spillage on floor.

(vii) Maintain good house keeping.

(c) **The Protective equipment to be used.**—(i) Use respiratory protective equipment in places where benzene vapours are present in high concentration.

- (ii) In emergency use self generating oxygen mask or oxygen air cylinder masks.
- (iii) Wear hand gloves, aprons, goggles and gum boots to avoid contact of benzene with your skin and body parts.

(d) **The first aid measure to be taken in case of acute benzene poisoning.**—(i) Remove the clothing immediately, if it is wetted with benzene.

(ii) If liquid benzene enters eye flush thoroughly for at least 15 minutes with clean running water and immediately secure medical attention.

(iii) In case of unusual exposure to benzene vapour call a physician immediately. Until he arrives do the following:

If the exposed person is conscious.—(a) Move him to fresh air in open.

(b) Lay down without a pillow and keep him quiet and warm.

If the exposed person is unconscious.—(a) Lay him down preferably on the left side with the head low.

(b) Remove any false teeth chewing gum, tobacco or other foreign objects which may be in his mouth.

(c) Provide him artificial respiration in case difficulty is being experienced in breathing.

(d) In case of shallow breathing or cyanosis (blueness of skin, lips, finger and nail beds) he should be provided with medical oxygen, or oxygen carbon dioxide mixture. If needed he should be given artificial respiration. Oxygen should be administered by a trained person only."

By order,
ANANG PAL,
Secretary (Labour).
